WHO WE ARE

A trusted Indian manufacturer of specialty lubricants

Royal Petro Specialities Pvt. Ltd. has been formulating automotive & industrial lubricants, greases and brake fluids since 2007, when we were established as an Export Oriented Unit (EOU) inside the Kandla Special Economic Zone (SEZ).

Our ISO 9001:2015 certified facility spans two manufacturing units across roughly 24,000 m², with an in-house, ISO/IEC 17025:2017 certified quality control laboratory, fully automated oil blending and grease manufacturing lines, and our own plastic blow-moulding & injection-moulding unit as well as an in-house metal tin manufacturing plant for packaging — giving us end-to-end control over quality, from raw material to finished pack. Beyond our own ROYAL brand, our SEZ location and in-house capabilities make us a trusted toll blending and private-label manufacturing partner, currently packing for 50+ brands around the world.

OUR OWN BRAND

Meet ROYAL, our own branded range

Alongside toll blending and private label manufacturing for 50+ global brands, we produce and market our own branded range of automotive & industrial lubricants, greases, brake fluids and specialities under the ROYAL name — backed by the same ISO 9001:2015 certified facility, ISO/IEC 17025:2017 certified lab and API EOLCS license used across all our production.

- ✓ Full range across engine oils, gear & transmission oils, greases, brake fluids and specialities
- ✓ Manufactured and packed at our Kandla SEZ facility under full quality control
- ✓ Open distributorship opportunities across international markets

Beware of duplicate products

We've identified third parties using logos and brand names deceptively similar to ROYAL, with only minor changes in spelling or design. Please purchase only through our authorised distributors, and contact us directly to verify authenticity before placing an order.

OUR RANGE

Lubricants engineered for every application

Explore our full portfolio by segment — from heavy-duty trucking to marine, industrial and motorcycle applications.

Truck, Tractor & Earthmoving

Heavy-duty lubricants for trucks, tractors and earthmoving equipment.
